MEMORANDUM FOR ALL INVITEES

SUBJECT: 2006 Tri-Service Healthcare Facilities Symposium

1. The United States Army Medical Department Assistant Chief of Staff for Installations, Environment, and Facility Management (ACSI&FM) is honored to announce the 2006 Tri-Service Healthcare Facilities Symposium. This year's theme of "Partnering for the Future" focuses on Federal, International, and Civilian Partnerships as they relate to healthcare facility managers and planners. The 2006 Tri-Service Healthcare Facilities Symposium will be held from 12-14 Jul 06 at the Boston Marriot Copley Place, Boston, Massachusetts immediately following the American Society of Healthcare Engineering (ASHE) Annual Conference and Technical Exhibit.
2. This symposium will bring together more than two hundred Tri Service representatives and TRICARE Management Activity staff engaged in Healthcare Facilities Life Cycle Management. The symposium's goal is to improve business practices across the healthcare facilities planning, design, construction, management, and sustainment continuum. This year's symposium will also include representation from both the Department of Veteran's Affairs and the U. S. Public Health Services as we reinforce our partnering efforts with sister government healthcare organizations also involved in Healthcare Facilities Life Cycle Management.
3. If you need any additional information, please contact Mr. James K. Palmer at DSN 471-7164 or Commercial 210-221-7164 or email james.palmer@amedd.army.mil. Additional information regarding symposium registration and lodging arrangements can be found on our web site at <http://www.tricare.osd.mil>.

A handwritten signature in black ink, appearing to read "C. Rinehart", is positioned above the typed name.

CARMEN L.C. RINEHART

Colonel, MS

Assistant Chief of Staff

for Installations, Environment,
